

500kW Communication Power Supply Rack Purchased from Distributors

From simple desktop units to sophisticated rack mount battery management systems, we have a complete line of products ready to ship out of our warehouse in Kansas City, Missouri.

The Vertiv(TM) Liebert® EXL S1 UPS delivers secure power while providing premium load protection and maximum energy saving for large scale applications such as ...

Featuring Toshiba's advanced IGBT technology in the rectifier/converter, DC/DC chopper, and inverter circuits, the G9000 achieves up to 97% efficiency at 50-100% loads and over 94% on loads down to ...

Compared to traditional UPS systems, fully modular designs with hot-swappable key modules - including STS module, communication interfaces and power modules - can also cut the mean time to repair ...

A high-performance, 3-phase, modular, scalable, power protection solution with industry-leading efficiency, capacity, and performance for medium to large data centers and mission critical ...

Made up of dedicated and redundant modules--power, intelligence, battery and bypass, all engineered into a design that is easily and efficiently serviceable, this architecture can scale power and runtime ...

TDK-Lambda is a global supplier of rack mount and hot swap AC-DC power supplies in a broad range of power levels to fit many applications.

The ML Series delivers 500 and 1,000 kW of programmable DC power in compact water-cooled floor-standing systems that achieve nearly four times the power density of comparable air-cooled designs, ...

Find rack mount DC power supplies for ATE, EV, and industrial test systems. Scalable, programmable, and ready for automation with remote interfaces.

Each component, from cooling to power distribution systems, is built using our innovative technology and design. They ensure maximum uptime for your data servers while reducing the total cost of ...
