A 72V pure sine wave inverter provides the same voltage and frequency as a utility company grid supply. This inverter generates a smooth, consistent AC power waveform.

We implement strict IOC, IPQC, FQC, OQC, QA, and other quality control measures in every process according to ISO9001, including to raw materials selection, production, package, and shipment.

Using the free to download "Inverter Wizard" software, the user can select output frequency, output voltage, and low voltage shutdown parameters from any Windows laptop through the standard micro-USB ...

These rugged inverters are extremely reliable, designed to provide many years of service in high shock, vibration, humidity, and EMI environments. Combining 3 inverters to form a 3 phase power system is optional.
