

Andorra large-scale cabinet system price list

Why should you choose Lista cabinets?

The extensive range of LISTA cabinets enables you to customise and add to your storage and workspace equipment. The high-quality steel cabinets can be easily integrated into a variety of working environments and individually adapted to your specific requirements.

What is the Lista storage wall's system?

The Lista Storage Wall's System is used to store a variety of different-sized CNC tooling at Tremec, a manufacturer of manual transmissions. This vertical solution maximizes Tremec's floorspace while providing the company with safe, secure and completely organized CNC storage. For more information on the Lista Storage Wall System, see pages 132-133.

Can Lista cabinets be mounted to a wall?

Lista overhead cabinets can be mounted to a wall for stability and permanence. Mount either directly to the wall with customer-supplied hardware, or by using a Wall Mounting Kit. Overhead cabinets can also be easily mounted atop an OHC stationary riser shelf for convenient support without having to mount the unit to the wall.

What are the different sizes of kitchen cabinets and drawers?

Cabinet housing and drawer fronts can be different colors, but drawer interiors are always gray. Worksurfaces come in 48", 60", 72", 84", 90" and 96" lengths, and are 24", 30" or 36" deep, depending on worksurface. Other sizes are available, and certain worksurfaces are available with a bullnose front edge.
