

Are there many 5G communication base stations in Djibouti City

Djibouti has two primary infrastructure-based Mobile Network Operators (MNOs): Djibouti Telecom and Somali Telecom Group (STG). Below is a detailed profile of each MNO:

Djibouti's twelve submarine cables are safeguarded by a monitored protective corridor. Once onshore, they connect to four autonomous energy stations, which are monitored around the clock.

This map represents the coverage of 2G, 3G, 4G and 5G mobile network in Djibouti. See also : mobile bitrates map in Djibouti, and mobile networks coverage in Djibouti.
