How can the outlook contribute to the development of Ethiopian energy sector?

The Outlook has been developed in close coopera-tion with all partners with strong commitment, openness and good discussions. It is the ambition that the Outlook in the same way can contribute to the development of the Ethiopian energy sector. 1. Executive Summary

How important is electricity access to Eco-nomic development in Ethiopia?

Expanding electricity access is fundamentalto eco-nomic development. While the current distribution grid covers only 25% of Ethiopia's land area,68% of the population resides less than 5 km from the grid. This highlights the potential to triple the number of household connections within the foot-print of the existing grid.
