

Georgia Electric Construction solar Panels

How much do solar panels cost in Georgia?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Georgia homeowner needs a 12.35 kW solar panel system to cover their electricity needs, which comes out to \$31,703 before incentives. Prices range from \$26,948 to \$36,458, but after the federal tax credit, that drops by 30%.

Is Georgia a good place to install solar panels?

Georgia is a good place for solar installations, with 217 sunny days a year and high power bills. The dropping prices of solar panels and decreasing installation costs and time have led to an increase in the number of Georgians opting for residential solar installations. The solar industry in Georgia is growing.
