

# Germany's hybrid energy storage power station

We deliver and service comprehensive, powerful and reliable systems, based on both gas and diesel engines, as well as electrified hybrid systems.

The company claims it is set to become Germany's largest solar-battery hybrid power plant under the Renewable Energy Sources Act (EEG). Located on a 41-hectare former gravel pit, ...

The plant has been feeding energy into the grid since October 2025. The renewable hybrid power plant in Zerbst is the first of its kind for Statkraft - developed in-house and connected to ...

The modern, EUR 45 million hybrid power plant was built on about 41 hectares of the former gravel pit. The 46.4-megawatt solar farm generates almost 50,000 MWh of green electricity ...

Statkraft has commissioned a hybrid power plant consisting of photovoltaics and battery storage in Zerbst in the district of Anhalt-Bitterfeld (Saxony-Anhalt). According to the company, this is 'the ...

Statkraft, Europe's largest renewable energy producer, has inaugurated Germany's largest solar battery storage hybrid power plant under the Renewable Energy Sources Act (EEG).

Statkraft, thought to be Europe's largest producer of renewable energy, has commissioned Germany's largest solar battery storage hybrid power plant under the country's ...

Statkraft has commissioned Germany's largest solar battery storage hybrid power plant in Zerbst under the Renewable Energy Sources Act (EEG). The project, developed in-house, marks ...

The Zerbst hybrid plant demonstrates practical integration of large-scale solar generation with utility-scale storage, delivering both renewable power and essential grid-support services in one ...
