

Havana Check out the Uninterruptible Power Supply Plant

What happened to Cuba's power grid?

HAVANA -- A new, widespread power outage plunged Cuba into darkness on Wednesday after one of the island's major power plants failed, leaving millions without electricity and forcing authorities to suspend classes and work activities indefinitely. Cuba's power grid collapses again. Why does this keep happening?

Did Cuba re-connect its national electricity grid?

REUTERS/Norlys Perez By Dave Sherwood HAVANA (Reuters) -Cuba reconnected its national electrical grid and restored power to the majority of the capital Havana by late on Sunday, energy officials said, nearly two days after an island-wide outage knocked out power to 10 million people.

How many people were left without electricity in Cuba?

(AP Photo/Ramon Espinosa) HAVANA (AP) -- Millions of people in Cuba were left without electricity for two days after the nation's energy grid went down when one of the island's major power plants failed. The widespread blackout that swept across the county was the worst in years.

Why does Cuba have a bad energy system?

Cuba's energy system also suffers from years of reliance on domestic, poor-quality heavy crude oil, which is corrosive because it's high in sulfur. This has accelerated the wear and tear on boilers, turbines, and pipes in Cuba's power plants, shortening their life spans and causing frequent and costly outages.
