

How do I get money for photovoltaic panels

Do solar panels cost a lot?

As well as being great for the planet, solar panels can save you money in the long run by reducing your energy bills. But they do come with an upfront cost. Luckily, there are ways to get help with the upfront cost of solar panel installation. Here, we'll walk you through the different solar panel grants and schemes you could be eligible for.

How much money can you earn from solar panels?

Some companies claim you could 'earn up to £20,000'. You continue to use the free electricity generated by your solar panels.

Do I need to pay VAT on solar panels?

This applies to both the cost of your solar panels and the cost of installation. However, for this to be the case, you'll need to use the same company to supply and install your solar panels. If instead you buy your solar panels from one company and get them installed by another, you'll need to pay 5% VAT on the cost of installation.

Can you get free solar panels?

Most homeowners find that they have to pay at least some of the upfront cost themselves, but that a grant or scheme can provide helpful savings. Ultimately, the best way to find out if you can get free solar panels is to look into the various schemes available to see if you meet their criteria.
