

Industrial rack-mount cabinets along the Belt and Road Initiative

Does the belt and Road Initiative alter the risk exposure of China?

Amidst the complex dynamics of global industrial chain reconstruction and the rise of anti-globalization, this study explores the impact of the Belt and Road Initiative (BRI) in altering the risk exposure of China's manufacturing industry chain.

What is China's Belt & Road Initiative (BRI)?

China's Belt and Road Initiative (BRI) now extends from East to West, from the Pacific to the heart of Europe and has become one of the most transformational trade policies connecting 137 countries along its routes since its inception in 2013.

Why is the Belt & Road Initiative important?

“Looking ahead, the BRI will make greater contribution to building a global community of shared future and establishing a more just and reasonable international order,” the director noted. This year is deemed pivotal for high-quality development of China-proposed Belt and Road Initiative (BRI), which has just celebrated its 11th anniversary.

How big is the Belt & Road Initiative (BRI)?

Since its launch, the scope of the BRI has grown rapidly. According to the Belt and Road Portal, China has, as at October 2019, signed 171 co-operation documents with 30 international organisations and 137 countries (see Figure 2).⁴ The BRI's footprint is now enormous- extending from East to West, from the Pacific to the heart of Europe.

This year is deemed pivotal for high-quality development of China-proposed Belt and Road Initiative (BRI), which has just celebrated its 11th anniversary.

It provides a robust analytical foundation to anticipate future developments and strategically navigate the complex international landscape shaped by the Belt and Road Initiative.
