

Kuwait city electric vehicle incentives

Will Kuwait become an EV city in 2021?

In 2021 KPA announced plans to establish the Middle East's first city to serve electric vehicle manufacturers, called EV City. The plan serves as a concrete manifestation of the New Kuwait 2035 vision and was a clear signal that Kuwait is committed to becoming a leader in the regional EV sector.

Can EVs be used in Kuwait?

Adopting electric vehicles (EVs) can greatly benefit Kuwait. Nevertheless, there are a handful of hurdles to overcome before this type of vehicle is widely used. One of the major worries among potential EV buyers is that there is no adequate public fast-charging network. At present, there are about 40 charging stations in the country.

Is Kuwait a good place to buy an electric car?

Kuwait is ranked low globally in terms of electric vehicle (EV) adoption, with only 450 registered EVs in 2024. Public fast-charging stations are insufficient, as there are only 40 active charging stations that operate at slow speeds. For instance, nearly four hours are needed to full charge the car.

Are electric vehicles coming to Kuwait?

Furthermore, car dealers have been requested to grant a battery life guarantee for up to 12 years and landlords advised on allowing installation of home wall boxes. In the last five years, over 830 electric vehicles have been imported into Kuwait electric vehicle market, which shows growing interest in EVs inside the country.
