

Large outdoor solar panels

What is a large solar panel?

Our "large" solar panel category ([click here for small solar panels](#)) includes solar panels generally over 200 watts.

Which solar panel is best for camping?

The Jackery SolarSaga 100 continues to be our favorite solar panel for camping. This model was redesigned for 2025, and the newest version is lighter and just as efficient as the previous one. It's easy to use and effective in full and partial sun. It is more affordable than many competing models, and it works better than those models.

What is the best solar panel?

We cart them around for months and hook them up in all sorts of configurations to assess how easy they are to use and how well they integrate into any charging system. The best solar panel is the Jackery SolarSaga 100. It impressed our testers with its lightweight design and efficient energy conversion.

Is a large solar panel worth buying?

The main use of a large solar panel is to convert sunlight into energy that you can use to power your life. We, therefore, weighted direct solar charging speed heavily. If the panel at the heart of your solar camping setup doesn't work well in direct sunlight, it isn't worth buying. We developed our testing with this in mind.
