

# Longi s new photovoltaic panels

What are LONGi Solar panels?

Longi Solar's two primary solar panel technologies are PERC cell modules and bifacial modules.. LONGi has two main series of solar panels: Hi-MO 4, and Hi-MO 5, which have a variety of different options to suit residential, commercial and utility-scale projects..

Are LONGi Solar panels worth the investment?

With costs that fall below the industry average and panel efficiency high enough for the average consumer, LONGi solar panels are worth the investment. Our rating: 3.6 Best for: Affordability. LONGi is a reputable solar module manufacturer with high-quality panels and with a solid review score of 4 out of 5 on SolarReviews..

What is Longi high-efficiency solar module?

LONGi High-efficiency solar Module, widely adopting PERC solar cells technology, Half-cut Module Technology and Bifacial PV technology, Mono Silicon Crystalline Technology has become a leading manufacturer and brand in the export and installation of monocrystalline silicon solar photovoltaic module.

What makes Longi a great solar company?

Let's examine them closely. Established in 2000 and headquartered in Xi'an, China, Longi has become one of the most valuable solar companies worldwide. Through its steadfast commitment to innovation, Longi is developing cutting-edge solutions for large-scale power plants, various industries, and households alike.

Certified by the US National Renewable Energy Laboratory (NREL), LONGi's self-developed large-area (260.9 cm<sup>2</sup>;) crystalline silicon-perovskite two-terminal tandem solar cell ...

Longi offers high-quality, reliable, and affordable solar panels compared to other solar panels in the same price range.. These modules feature cutting-edge photovoltaic (PV) technology embedded in ...

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering high ...

With high conversion rates, Longi solar panels can generate more electricity from the same amount of sunlight compared to conventional panels. This means homeowners and ...

Chinese solar technology giant Longi Green Energy Technology Co Ltd announced two new world records for solar cell efficiency recently, further cementing China's leading position in the ...

Longi, the China headquartered solar PV solutions giant, has launched its latest Hi-MO X10 solar module series at an event held in Shanghai. The new modules use Longi's 2nd generation ...

With excellent technical research and development team and advanced production equipment, it has established a good reputation in the solar photovoltaic industry, and its products are exported to ...

# Longi s new photovoltaic panels

Company profile for solar panel and material manufacturer LONGi Solar Technology Co., Ltd. - showing the company's contact details and offerings.

Chinese solar manufacturer Longi unveiled a new PV module with 25.9% efficiency at the 2025 SNEC trade show this week in Shanghai, produced using both low- and high-temperature ...

HPBC (Hybrid Passivated Back Contact) is LONGi self-developed and named hybrid passivated back contact cell technology. It is a new generation of high-efficiency cell technology ...
