

Off-grid solar cabinet 20kW for campsite in Canberra

Do you need an off-grid solar system in Canberra?

One of the biggest advantages of having an off-grid solar system in Canberra, ACT is reduced energy costs, as rural consumers are often asked by utility providers to pay excessive grid connection fees. If your building can't connect to the local power grid, an off-grid system is exactly what you need.

Can GES energy install an off-grid Solar System?

Our in-house, SAA-accredited off-grid solar specialists can supply, design and install an off-grid system for you, even if you're located in an isolated area without access to the local grid. With GES Energy on your side, you can have peace of mind knowing that your off-grid system will be installed correctly.

Are off grid solar kits reliable?

At Off Grid Solar Kits, we have installed hundreds of reliable, high performing, stand-alone power systems Australia wide. Choosing to work with quality brands, our off grid inverters and solar chargers are reliable and work with all battery types Lithium-ion, Aquion, Agm, Tubular gel OPZV, Tesla Power Wall, and LG Chem, and Redflow.

How reliable is off-grid solar power?

Off Grid Solar Power can be as reliable and affordable as being connected to the grid. With today's lithium battery technology combined with the new generation of solar battery system inverters and chargers, anyone can produce their own electricity, in any remote location.
