

Outdoor Power Safety Ranking

Are outdoor power strips safe?

Outdoor power strips have safety features to prevent them from shorting out due to overloading. Some outdoor power strips also function as surge protectors and have built-in fuses that cut off the flow of current when it exceeds the maximum wattage for a standard 15-amp outlet, which is 1,875 watts.

What is the best outdoor power strip?

My top pick, the APS IPX6 9-in-1 Outdoor Power Strip, is waterproof, durable, and includes a mixture of three-prong outlets and USB plugs. See which other models I recommend below. The outdoor power strips below are the best of the bunch. My selections range from small three-outlet power strips up to large capacity 10-outlet models.

Can you use a power strip outside?

Never Use Indoor Power Strips Outdoors While there are power strips that are designed for outdoor applications, unless your strip's packaging specifically says it's suited for outdoor use, it's not designed to stand up to weather and water. Keep it inside and find one you can use safely out in the elements.

Are outdoor power strips weather resistant?

Outdoor power strips come in a variety of sizes, from small three-outlet models up to large 10-outlet beasts. Unlike indoor models, these rugged, weather-resistant power strips can endure extreme temperatures and even downpours. Understanding what weather conditions an outdoor power strip is rated to handle is key to purchasing the right one.
