

# Photovoltaic energy storage enters the market

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

As of Q1 2025, China's photovoltaic (PV) energy storage industry has entered a period of accelerated growth, driven by national "dual-carbon" goals--peaking carbon emissions by 2030 and ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector ...

Currently, LONGi possesses leading technologies in PV and hydrogen energy - with its HIBC cell efficiency reaching 27.81% and its ALK electrolyzer capacity ranking first globally.

The Energy Storage Market worth 0.54 terawatt in 2026 is growing at a CAGR of 23.05% to reach 1.52 terawatt by 2031. Contemporary Amperex Technology Co. Ltd. (CATL), Tesla Inc., LG ...

LONDON, November 26, 2025 -- LONGi, the global leader in solar technology, today unveiled its energy storage strategy in London, officially announcing its entry into the storage sector ...

Chinese solar power giant Longi Green Energy Technology Co officially announced its entry into the storage sector with the launch of the Longi Energy Storage One-Stop Solution.

LONGi, one of the world's leading manufacturers of monocrystalline silicon wafers and a major producer of solar modules, has unveiled its energy storage strategy in London, announcing its ...

Chinese solar PV companies have steadily moved into energy storage, seeking to capitalise on its growth opportunities but also to offset falling profits in their core market as the sector ...

LONGi officially announced its entry into the storage sector with the launch of the LONGi Energy Storage One-Stop Solution, expanding from global photovoltaic leader to an integrated ...
