

Photovoltaic pallet packaging board

What is pvpallet?

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for residential, commercial, and utility-scale solar projects. Reduce waste, improve efficiency, and ship solar modules and balance of system components safely.

Will pvpallet revolutionize the way we ship solar panels?

At least that's our approach. PVpallet is the first solar shipping solution to revolutionize the way solar modules are handled and distributed.

Can solar PV pallets reduce solid waste & product damage?

With over 1.5 million single-use pallets used annually for solar shipments, PVpallets is looking to reduce solid waste and product damage. The first generation of reusable, recyclable shipping pallets for solar PV modules is ready for use with key clients.

What are the advantages of pvpallet shipping for solar modules?

Additional advantages of the PVpallet shipping solution for solar modules include: High-density plastic sidewalls and cross braces protect modules in transit. Exterior walls easily adjust to fit various module sizes. Walls collapse and pallets stack for easy return shipping. Pallets stack up to four high to maximize warehouse space.

2. Palletized vs. Loose Packing To facilitate handling and to protect the panels along the way, the manufacturers commonly ship the solar panels on pallets. Here is what a 40ft container ...

Splicing Plastic Pallet for Solar Panels and PV Modules This 1700x1700mmx150mm HDPE splicing plastic pallet combines modular large-format construction, 6 runners racking strength, ...

PVpallet offers sustainable packaging solutions for the solar industry, promoting a circular economy and addressing challenges like damaged solar panels, rotted pallets, and disposal fees. Our products ...

Our comprehensive solutions cater to a range of needs within the industry, including Solar Module Shipping & Storage, Job Kitting, Warehouse Organization, R&Rs, Battery & Inverter Packaging, and ...

With over 1.5 million single-use pallets used annually for solar shipments, PVpallets is looking to reduce solid waste and product damage. The first generation of reusable, recyclable ...

As the global photovoltaic (PV) industry continues to scale up and pursue ever-greater efficiency, production speeds for PV modules have accelerated significantly. However, compared to ...

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for utility-scale solar projects. Reduce waste, cut breakage, and improve jobsite efficiency.

Photovoltaic pallet packaging board

For vertical shipment the patented trio interlocking corners allow higher packing density than comparable cardboard systems. The trio also allows horizontal stacking for internal handling or shipping. The ...

packaging and turnkey logistics solutions. We offer robust options like BOS bulk bins and solar module pallets, as well as packaging consulting and turnkey logistics services. Our goal is to provide win-win ...

Solar module packaging manufacturers are improving the industry by reducing costs, increasing productivity, and promoting sustainability.
