

Portable power storage power station in new york usa

Why should you choose a portable power station?

Whether you're hosting an outdoor event, running a job site, or simply need backup power, our portable power stations provide a seamless energy solution. Designed for mobility and efficiency, our units are powerful enough to handle the demands of modern devices and tools while maintaining a sleek, easy-to-use design.

Why should you rent a portable power station?

Whether you need short-term or long-term rentals, we offer flexible options to fit your specific needs. Affordable & Convenient: Renting a portable power station is a cost-effective way to ensure you have power where and when you need it, without the hassle of owning and maintaining equipment.

Why is mobile energy storage a stranded asset?

Stationary storage lacks flexibility, suffers from low utilization and from the risk of becoming a stranded asset. Power Edison addressed these issues by developing mobile energy storage platforms: TerraCharge(TM) and AquaCharge(TM) for mobile land-based and water-based mobile energy storage respectively.

Why do energy storage systems matter?

Energy storage systems enable a smarter and more resilient grid infrastructure through peak demand management, increased integration of renewable energy and through a myriad of additional applications. However, grid challenges are dynamic, appearing at different times and locations over the years.
