

Purchase solar panels

How much do solar panels cost?

Solar system prices vary, depending on the type of solar panels, manufacturer, cell size and wattage output. Our solar panels cost between \$300 to \$400 per panel, which is a competitive price considering the brands' top-tier quality and high standards. Some solar panels can run as high as \$600.

How do I buy solar panels?

How you choose to buy solar panels depends on your financial situation and your savings goals. Paying cash is the simplest way to buy solar panels and offers the greatest return on investment. Cash purchases are typically made in 3-4 installments. For example:

Can you buy solar panels yourself?

While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons to buy them through an installer. Design a custom solar system and compare quotes online. The back way into buying solar panels is buying a house that already has solar panels installed.

Where can I buy solar equipment?

Like wholesale resellers, Amazon is another way to purchase solar equipment directly. Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.).
