

Server rack dustproof type warranty period and price inquiry

Are NEMA 12 server racks dust proof?

No server cabinet is 100% dust proof, no enclosure completely water proof, but NEMA 12 server racks can go a long way to protecting your vital IT equipment. These Dust Resistant/Water Resistant Racks, are 19" EIA 310-D compliant and should fit most rackmount equipment.

Why do you need a dust protection system?

It is ideal for use in factories, construction areas, utility plants, warehouses and other areas with limited space that are high in moisture, dust and debris. It can protect your equipment from falling dirt, dust, drips, splashes and accidental contact with personnel.

What does the IEC code on a rack enclosure mean?

The IEC (International Electrotechnical Commission) uses a two digit code to define specific protection capabilities. For a full explanation of IEC rack enclosure ratings, click [What does the IP rating on this product mean?](#) IP stands for "Ingress Protection" and defines levels of sealing against moisture, dust and other foreign bodies.

What is a rack unit?

A rack unit (commonly referred to as a "U") is a standard measure of the height of a device in a server rack. One rack unit is 44.45 mm (1.75 in) high. The height of a one rack unit device is described as 1U, a two rack unit device as 2U and so on. Is this cabinet compliant with the Payment Card Industry Data Security Standard (PCI)? Yes.
