

# Wellington energy storage investment

What is the Wellington Battery energy storage system?

The Wellington Battery Energy Storage System (BESS) will store excess renewable energy ready for use by homes and businesses during peak times. BESS projects play an important role in the future electricity system. Construction of the project will be undertaken by AMPYR's preferred construction contractors Fluence and RJE Global.

Which energy storage products will Fluence provide for the Wellington Bess stage 1?

Fluence will provide its full suite of energy storage products, including Gridstack and Mosaic, for the Wellington BESS Stage 1. Image: Fluence. Renewable energy developer Ampyr Australia has reached financial close on its 300MW/600MWh Wellington battery energy storage system (BESS) Stage 1 in New South Wales.

When will the Wellington Bess be energised?

Stage 1 of the Wellington BESS is scheduled to be energised in 2026. Ampyr Australia has contracted Fluence, a battery storage system integrator and clean energy software and services company, to deliver the 600MWh Wellington BESS.

Who owns the Wellington Bess site?

Ampyr Australia purchased the remaining 50% in the Wellington BESS site from Shell Energy Australia in early February. This was for the project's first stage, comprising 300MW/600MWh BESS, whilst the second stage, already owned by Ampyr, will increase this by 100MW/400MWh.

For businesses looking to cut energy costs and secure reliable power, commercial energy storage batteries are an investment with lasting economic benefits. With reduced electricity bills, ...

AMPYR Australia has obtained over A\$340 million (\$221 million) in funding for its 300MW/600MWh Wellington Stage 1 battery energy storage system (BESS) in regional New South ...

Well, Wellington's energy storage sector's kind of reached that perfect storm moment. With New Zealand targeting 100% renewable electricity by 2030, the region's seen a 78% spike in battery storage ...

Summary: Explore how the Wellington 180MW solar PV and 15MW energy storage project redefines renewable energy integration. Learn about hybrid power solutions, grid stability innovations, and New ...

The Wellington Stage 1 BESS is AMPYR's first grid-scale battery energy storage system to reach financial close in Australia. This project is ...
