

What to do if rural photovoltaic panels steal electricity

How do I protect my solar panels from theft & vandalism?

Invest in insurance for your solar panels to protect against theft and vandalism. Ensure professional installation and regular cleaning to deter potential thieves and vandals. Implement security measures such as alarms, marking, and specialized hardware to secure your solar panels.

Are solar panels stolen?

By way of example, in August, solar panels worth approximately £10,500 were stolen from an energy farm in Northamptonshire. Solar panel theft is not limited to large scale and commercial solar farms either - homes in remote areas are also vulnerable, with thieves reportedly swiping panels from people's roofs. Why?

Are criminals looking at solar panels?

And alongside machinery, recent figures from the UK police suggest criminals have set their sights on another lucrative opportunity - solar panels. Solar is currently only a small part of the UK's energy mix, but its share is growing, with estimates from Solar Energy UK suggesting the total solar capacity stands at 15 GW.

How do I protect my solar panels from claims?

Some common occurrences you're indemnified against are wind or other natural elements, falling trees, animal damage, fire damage, theft, and vandalism. However, you can also play a role in protecting your solar panels from claims by cleaning them regularly, removing overhanging branches, and inspecting the PV system frequently.

Anti-Theft Mounting Systems These are like Fort Knox for your solar panels. Anti-theft mounting systems are designed to make it super hard for anyone to remove your panels without ...
