

Wind power generation equipment leader

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

Is Goldwind the world's leading wind turbine manufacturer?

Goldwind has maintained its position as the world's leading wind turbine manufacturer, delivering 16.4 GW of capacity in 2023.

Who is the largest wind turbine manufacturer in China?

Goldwind is the largest wind turbine manufacturer in China and third in the world in terms of installed capacity. The Chinese manufacturer has installed more than 138 GW of wind energy around the world.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

26 Wind Turbine Manufacturers in 2026 This section provides an overview for wind turbines as well as their applications and principles. Also, please take a look at the list of 26 wind turbine manufacturers ...

For the first time in history, the world's top four wind turbine manufacturers are Chinese: Goldwind, Envision, Mingyang, and Windey. Meanwhile, in 2024, Europe reached a 92% share of its ...

Get the latest news on the top wind turbine manufacturers, including Acciona, Alstom, GE, Enercon, Gamesa and Vestas on Windpower Monthly

Goldwind is a global leader in clean energy, energy conservation, and environmental protection. As a world-top wind turbine manufacturer, we are committed to providing integrated wind power solutions, ...

Spain-based Siemens Gamesa Renewable Energy SA (Siemens Gamesa), formerly Gamesa Corporacion Tecnologica SA, is one of the leading wind turbine manufacturers in the world ...

China leads in wind power while Europe lags behind. China is emerging as a dominant player in global wind power generation, with manufacturers in the country supplying nearly 60% of ...

Wind power is a leading solution as the world increasingly turns to renewable energy to combat climate change and ensure energy security. The global wind energy market size was ...

Check out our blog for the best wind turbine manufacturers, including the largest OEMs in the wind industry

Wind power generation equipment leader

and leading wind power generation companies.

The European Union, facing supply chain constraints, inflation, and rising costs, has responded with the EU Wind Power Action Plan to regain competitiveness. However, it remains too ...

The Strategic Trajectory of Wind Turbine Market Leaders As wind power surges toward a projected USD 267.54 billion market value by 2030, industry decision-makers need clear insights into the ...
